ALUMNI FEEDBACK ANALYSIS and REPORT YEAR 2018-2019

The University's Institutional Quality Assurance Committee (IQAC) solicited feedback from all alums to help guide the University's future development. Over the course of the 2018-2019 academic year, almost 450 former students have taken the time to offer their opinions. The Panjab University is committed to providing the finest possible education to its students and values the feedback it receives from its alumni, which it uses to strengthen the quality of its academic programmes and build its reputation. The Alumni provided feedback both digitally and manually during formal and informal meet ups held throughout the year. It was analysed, summarised, and rated how effective the outcomes were. The report is shared on IQAC website for wider dissemination among all its stakeholders.

Annually, the IQAC surveys university alums on the following measures:

1) Curriculum/ Syllabus Relevancy & Standards
2) Infrastructure of University
3) Skill & Personality Development
4) Industry Specific Training & Placement Standards
5) Institutional Relationship with Alumni/ Alumni Interactions

Feedback Analysis

|	
Parameter 1: Curriculum/ Syllabus Relevancy & Standards	Quality of course content
	Syllabus applicability/relevance to real life situation
	Programme curriculum in terms of knowledge, concepts, skills, analytical abilities and broadening perspectives
	Relevance of class room & teaching materials
	Faculty Support

Curriculum / Syllabus is up to the Standard

The Education imparted at Panjab University is useful and relevant in your present job
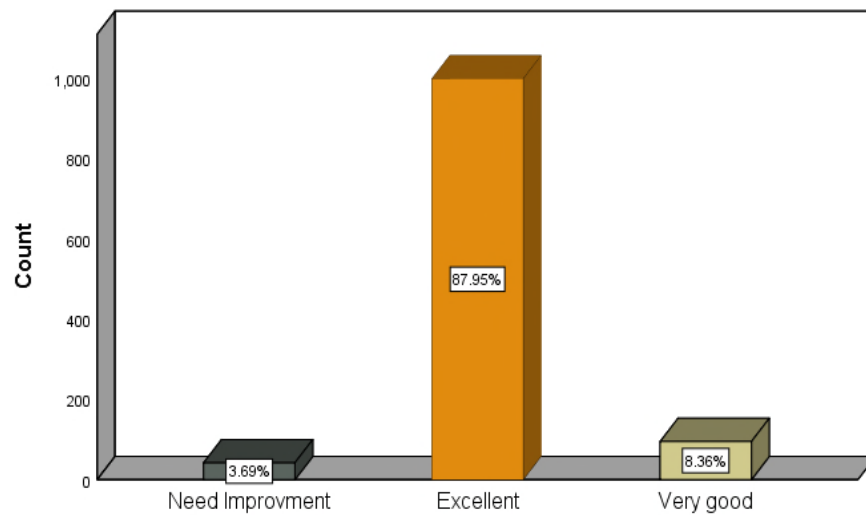

Parameter 5: **Alumni Association**	Do you receive regular updates from University/Department of Alumni Relations
	The executive body of Alumni Association along with the college should take initiatives to efficiently enrol and strength the Alumni Association
	If you want to willing contribute to the development of your Alma Matar

If you want to willing contribute to the development of your Alma Matar
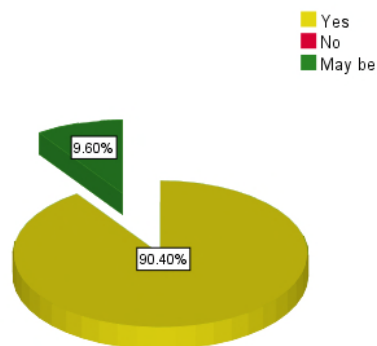

The alumni feedback report is a testament to the college's commitment to providing excellent academic facilities and support for its students. Alumni's indicated that the extensive library collections, laboratories, and classrooms to the student help desk, every facility offered by the university offers an ideal environment for learning. Feedback from alumni indicates that students are pleased with the college's teaching methods and curriculum growth. Students were happy with the college professors' assistance and mentorship.

The college also provides ample opportunities for skill development and enrichment activities. From organizing workshops and seminars to industry internships, students are exposed to a wide range of experiential learning opportunities. Moreover, the infrastructure facilities of the college are impeccable with well-maintained hostels, canteens, gymnasiums, green and environmentally friendly etc., making it an all-round conducive environment for educational growth.

The majority of students believe that the college's basic facilities for differently-abled students, such as ramps, elevators, and so on, are good.
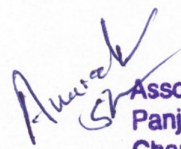

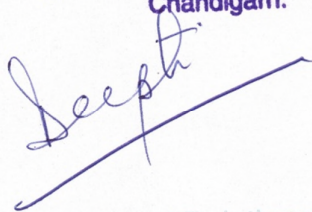

Suggestions by Alumni

While the university does a good job of providing a placement cell and often holds workshops and seminars, some alumni have expressed a desire for even more opportunities like these and for more access to career counselling services. Some shared their views departments can organize activites focused on industry and global need-based forums more placement opportunities and seminars and career counselling for the students. Promote peer-to-peer collaboration through the development of online discussion forums or communities where students can share their experiences and offer feedback and advice. Demonstrate a commitment to sustainability by investing in renewable energy sources, green campus initiatives, and creating new opportunities for students interested in environmental studies or business leadership roles related to sustainability innovation projects.

Action Taken Report

After carefully analysing the provided input, appropriate measures were implemented. Training sessions led by a third-party organisation and student coordinators of each department's Training and Placement Cell as well as the university's Central Placement Cell were planned to help students hone their abilities. The university has made significant efforts for collaborating closely with industries, government bodies and NGOs for industrial internships and research collaborations. Setting up mentorship programs that involve experienced faculty

members, alumni and industry professionals. Offering scholarships or fellowships which help students pursue higher studies or conduct independent research. Investing in extensive library facilities with comprehensive digital archives.
